Mount Carmel College

I-AIM

DEPARTMENT OF BOTANY MOUNT CARMEL COLLEGE

MOUNT CARMEL COLLEGE is an educational institution primarily for women, located in the garden city of Bangalore. The college reflects the dynamism and energy of this fast growing Indian metropolis. Mount Carmel has always been the forerunner of constructive changes to help generations enrich knowledge and enhance skills to match the pace of the world. The Botany Department was established in 1952.

VISION

Keeping in mind the vision of the college, the Botany department focuses on empowering our students through awareness programmes and to create opportunities for self employment.

MISSION

- To instill in our students love for nature through regular field trips and workshops.
- Creating awareness among the youth on the urgent need of conservation of medicinal plants and herbal wealth.
- To take care of their primary health care needs using locally available herbs.
- To go beyond theoretical knowledge and introducing the students to the applied aspects of our subject.

INSTITUTE of AYURVEDA and INTEGRATIVE MEDICINE (I-AIM)

The INSTITUTE of AYURVEDA and INTEGRATIVE MEDICINE (I-AIM) is an initiative of FRLHT, a registered Public Trust. The trust started its operations in 1993. It is a new age health science institute, focusing on the rediscovery of Ayurveda's holistic and sophisticated theoretical foundation. It strives to revitalize the Indian medical heritage by developing an integrated, epistemologically informed interface with the knowledge streams of biomedicine, life sciences, engineering, social science and art. I-AIM also works to restore links with the oral traditions rooted in the community, so as to strengthen the self reliance of rural and urban households in primary health care.

OUR VISION

“To revitalize Indian Medical Heritage”

Through creative applications of Traditional Health Sciences for enhancing the quality of healthcare in rural and urban India and globally.

OUR MISSION

To demonstrate the contemporary relevance of Indian Medical Heritage by designing and implementing innovative programmes on a size and scale that will have societal impact.

The Five thrust areas of IAIM are:-

- Contribution to the self-reliance and health security of millions of rural and urban households and communities through green health.
- Original contributions to the world of medicine from its rich *Materia-Medica*, pharmacy, pharmacology, clinical practice and basic concepts of health and disease.
- Conservation of threatened natural resources in use by Indian Systems of Medicine
- Generate well trained human resources with knowledge and skills to disseminate the traditional health sciences globally.
- Creation of traditional knowledge inspired enterprises to provide goods and services to the community, that benefit in holistic ways

FRLHT – I-AIM is recognized by Department of Scientific & Industrial Research (DSIR) as a Scientific Industrial Research Organization (SIRO). The Ministry of Science & Technology recognizes the institute as a scientific and industrial research organization. The Ministry of Environment & Forests and the Ministry of Health have designated it as a National Center of Excellence for medicinal plants and Ayurveda respectively.

OVERVIEW OF CONFERENCE

THEME

- TRADITION
 - Ethnomedicine and its relevance
 - Folklore medicine home remedies
 - Primary health care
 - Marketing strategies and
 - Constraints of traditional medicine

Herbal Garden

Conservation

Medicinal Plants

- EDUCATION
 - Awareness on traditional practices
 - Awareness on herbal wealth
 - Endangered plants
 - Sustainable practices
 - Cost effectiveness
 - Combating pollution to sustain medicinal plants
- CONSERVATION
 - Identification of adulterants
 - Product development
 - Quality control
 - Women empowerment and
 - Entrepreneurship
- TECHNOLOGY

SCOPE

To bring together Academicians, Industry, Local Healers, Students and Public on a common platform for exchange and rejuvenation of traditional healing practices for the future.

OBJECTIVES:

- To impart knowledge on traditional herbal medicine
- Taxonomic knowledge on medicinal plants
- Medicinal plant conservation with special reference to endangered plants.
- Sustainable practices
- Quality control of drugs
- Screening of phytochemicals in medicinal plants

TARGET GROUP:

Academicians, Students, Research Scholars, Scientists, NGOs, Local Healers, Industrialists and Public

IMPACT

- Promotion of sustainable practices and ecofriendly products in maintaining primary health.
- Focus on Green Wealth and Herbal Technology.

CALL FOR PAPERS

A soft and hard copy of the abstract with maximum 200 words should be sent to the organising committee on or before 31st December 2012. All the abstract will be reviewed and the acceptance will be intimated. A soft and hard copy of the full length paper should be sent to the organising secretary so as to reach on or before 15th January 2013, along with a soft copy through e-mail mccbobotany@gmail.com. No paper will be accepted without registration fee.
